Interest Cov.	Revenue CAGR	Net Margin
5.95	9.31%	30.34%

Revenue Trend (10 Years)

Net Profit Trend (10 Years)

ROE vs ROCE Trend (10 Years)

Balance Sheet Composition

Cash Flow Waterfall

Capital Allocation

Aggressive Reinvestment

Pros

- Operating profit margin above 25% indicates strong pricing
- Return on equity improving for 3 consecutive years shows
- Revenue growing slower than profits shows improving operations

Cons

- High debt burden relative to cash generation limits financing
